

# First Finger First Position String Orchestra

**Eight innovative pieces for string players in their first year,  
using first position (only first finger) and open strings.**

Parts:

Violin I - copious use of first finger.

Violin II - mostly open strings and only a little first finger.

Viola - usually doubles either Violin II or 'Cello; if not, its omission  
does not detract from overall effect of performance.

'Cello - copious use of first finger.
